

BLOWING WORKING SEWING TABLE

## BLOWING WORKING SEWING TABLE

Table to facilitate handling mattresses during the sewing process.

### Composition

Consists of three modules which are easily set up. The main part houses the fan complete with air filter.

### Main features

- Supporting structure in three sections.
- All parts in alloy.
- Designed to be lightweight and easily handled.
- Working area with special low friction composite surface.
- Plans and diagrams supplied for easy maintenance.
- Air filter is easily accessed for inspection and maintenance.
- Large surface area ensures high air flow even if there are some air impurities.
- The strategic pattern of air holes concentrates air pressure to areas bearing the heavier weights.
- Operator can manage the air pressure according to the weight of the product.
